

2025 National Red Devon Show Results

The 2025 National Event and Show was a great opportunity to see some quality Devons with animals from Montana, Virginia, Maine, Ohio, Wisconsin, New York, Maryland, and Pennsylvania. Attendees saw a great variety of genetics from diverse climates with one thing in common – cattle that excel on all forage diets. Judge Steve Campbell had a tough job determining the winners with this superb group of Devons! Congratulations to the winners and thanks to everyone that brought cattle to showcase this amazing breed. If you missed this event, all cattle can be seen thanks to a review on *The Devon Corner* by Jeremy Engh and David Fell. Link is on Red Devon USA facebook.

Thanks to Southwest Project Grass for the partnership with this great event. Attendees were able to hear talks on many different subjects as well as visit a local farm. Also thanks to our many sponsors who helped make this event a success.
